

HAVE YOUR CHILD'S EYES CHECKED

Detect and correct problems early and prevent issues which can result in permanent vision loss.

Eye exams are free with an OHIP card for children 19 years of age and under.

Book an eye exam today with a local optometrist (eye doctor).

Undetected vision problems such as nearsightedness, farsightedness and astigmatism can lead to skill development and learning issues.

Fortunately, many eye problems can be treated if caught early!

WHEN TO SCHEDULE EYE EXAMS

Schedule at least one exam for your child by age five, and annually from ages six to 19.

The only way to know for sure if your child has a vision or eye health problem is to have your child seen by an optometrist.
