

NEW SPECIAL RELEASE SCHOOL-BASED VACCINES ORDER FORM

INFORMATION FOR YORK REGION HEALTHCARE PROFESSIONALS AS OF FEBRUARY 28, 2025

Effective March 3, 2025, a new order form and submission process for the special release of school-based vaccines will be implemented.

York Region Public Health (YRPH) is excited to announce a new, streamlined Special Release School-Based Vaccines Order Form to enhance efficiency, increase accessibility and reduce processing delays. This form is to be used to request school-based vaccines (Hep B, HPV-9, and Men-C-ACYW-135) for students in Grades 7 to 12 who are unable to receive these vaccines at a YRPH community or school immunization clinic.

Healthcare professionals interested in ordering these vaccines for eligible students must:

- ✓ Complete the new Special Release School-Based Vaccines Order Form
- ✓ Submit the completed form and refrigerator temperature log to YRPH's Vaccine Inventory Program by email at vaccineinventory@york.ca or by fax at 905-830-0578

Vaccine order submission acknowledgement and eligibility review findings will be communicated via email and the vaccine order pickup process will remain unchanged. Additionally, a dosing chart resource for Hep B, HPV-9, and Men-C-ACYW-135 vaccines for students in Grades 7 to 12 is included as a reference tool.

For more information and the latest versions of all publicly funded vaccine order forms, including the new Special Release School-Based Vaccines Order Form, visit york.ca/VaccineInventory.

CONTACT YORK REGION PUBLIC HEALTH

If you have any questions about the new order form or vaccine distribution, storage, and handling, please contact YRPH's Vaccine Inventory Program at vaccineinventory@york.ca or via phone at 1-877-464-9675 ext. 74033.
