**Subject:** Eating Disorders Awareness Week Proclamation Request 2016

Good afternoon Mr. Casey,

I am looking to contact Mr. Wayne Emmerson, with the following proclamation request. The first week of February has been declared Eating Disorders Awareness Week, and many cities and towns have included this event as a proclamation in the past, including Aurora and Whitchurch-Stouffville last year. We humbly ask that York Region will consider declaring a proclamation for this cause. During the first week of February, Riverwalk Eating Disorders and Wellness Centres will be holding an EDAW event at our Aurora office and art gallery to bring support and hope for eating disorders to this community. We would like to extend an invite to come out and support and raise awareness for eating disorders.

Please let me know if you have any questions, and feel free to visit our website at [www.edoyr.com](http://www.edoyr.com) for more information about our support services and programs.

*Sincerely,  
Natalia*
