Subject **Treatment of Energy Incentives**

Authority Operating Agreement

Effective Date Immediately

Background Housing providers have taken advantage of various financial incentives to help with costs required to pay for energy-saving measures.

What You Need To Do Housing providers who have received grant funding should treat the money as replacement reserve revenue. The energy grants should be booked directly to your replacement reserve fund. The energy expenditures should also be booked as replacement reserve expenditures.

This treatment will ensure that housing providers retain the full benefit of the additional funding.

Please contact your Program Co-ordinator if you have any questions.
