

DIAPERING ROUTINE

- 1 Gather needed supplies**

- 2 Wash your hands**

- 3 Put on disposable gloves**

- 4 Remove and discard the soiled diaper**

- 5 Clean child's bottom. Diaper and dress the child**

- 6 Discard soiled gloves in the garbage container**

- 7 Wash your hands and then child's hands. Return the child to a supervised area**

- 8 Clean and disinfect the change pad ensuring proper contact time is followed**

- 9 Wash your hands**

Please note: Staff working in close contact (i.e., less than 2 metre distance) with children who are unmasked, must wear **eye protection** in addition to a medical mask

For more information refer to *A Public Health Guide For Child Care Providers* at york.ca/childcareguide

This schedule provides the minimum frequency requirements that apply to normal child care centre operating conditions. When there is increased illness in the centre or an outbreak is declared, extra cleaning and disinfecting will be necessary.
